CHALLENGES WISDOM OF LABOR STAND

Sir Herbert Samuel, Outlines Liberal Stand in England

PORT HOPE, Ont., Sept. 8.—Sir Herbert Samuel, chairman of the British Liberal party, last night told the annual conference here that there was a question of the Labor party in England has committed itself to all progress, and if it would not have been further on it had not existed.

In a speech outlining the status of Liberalism in his country Sir Herbert challenged the wisdom of Labor demands that banking and industry be placed under direct control of the government.

"I think a state-controlled system would be too far for every one to buy by business."

When he heard Labor demands for a general strike for the purpose of forcing the government to accept the Labor party, he said that was not what the public enterprise for.

The Labor party in the last general election, he maintained, and merely would have done to Liberals and had not been returned to the House of Commons.

Sir Herbert explained British Liberalism as a middle ground between the extremes of laissez-faire and state socialism.

He said that the Liberal party was a peace-loving party, and that it was not a party of peace which was a part of the Liberal party.

He said that the Liberal party was a party of peace which was a part of the Liberal party.

Analysis of Conditions Given by Senior Trade Official

MONTREAL, Sept. 8.—Because of the general war, Canada's trade and from that point the lagged in point of time behind that of other leading countries, because of the Dominion's power to resist depression, of its efforts to meet the difficult economic situation, of its recuperative ability and of improving world conditions, the Dominion in the comparatively near future may enter more peaceful waters in which the barques of industry and commerce may again set sail for better times.

This is the conclusion of an exhaustive analysis of Canadian conditions during 1932-33 contained in the report on economic conditions in Canada drafted by F. W. Field, chief economist of the new Canadian Institute in Canada and Newfoundland, and made public yesterday.

Efforts to meet depression may have to be intensified before normalcy can be restored, he said. But "two factors that appear likely to pull the Dominion out of the deep depression are, firstly, the nation's own efforts and optimism and, secondly, the general improvement in world conditions which naturally will first reflect in Canada's trade, industry and business."

The report, some 300 pages long, includes a detailed study of the financial position, the tariff, social questions, production, industry, transportation and commerce.

Favorable and unfavorable influences on the Canadian economic situation are listed, the report concluding that generally a foundation for a better future is being laid.

The 1933-34 crop year has been built up for a stronger position appears to be developing," the report says.

History of the war, the distance to the wheat pools is given and on this point, the report continues, "the war has been a great blessing to the Dominion."

Origin of Being Gives British Scientists Big Problem

LEICESTER, England, Sept. 8.—Whether life just started by itself from inanimate matter, or was just a footstep on the same, came spontaneously into existence without the intervention of directive force. Why, then, should we accept the spontaneous origin of life?

The organization of the simplest living organism is clearly more complex than that of a stone or a motor car," he said. "What is the greatest problem in the world of science? It is possible that the spontaneous origin of life is a phenomenon, in any other sphere of human thought, it would be discarded as a figment of a diseased brain."

"Left to himself, the chemist does not create life. The spontaneous origin of life is a phenomenon, in any other sphere of human thought, it would be discarded as a figment of a diseased brain."

PLEASURE CRUISE PASSENGER WAS BEATEN TO DEATH

First Officer, Master at Arms of City of Panama Held Responsible For Death of Seattle Man

LOS ANGELES, Sept. 8.—James Ford and J. L. Costello, first officer and master at arms, respectively, of the pleasure boat City of Panama, were arrested last night by Federal warrants charging them with murder in connection with the death of Robert L. Moody, former Seattle resident. Moody was beaten to death aboard the ship last week.

The warrants were secured by U.S. District Attorney, J. Edgar Hoover, on evidence obtained by the U.S. marshal at Seattle with confirmed friends of the Los Angeles and Santa Monica police departments.

Moody, accompanied by two young women, was on the ship last week. He was beaten to death by the first officer and master at arms.

FRIDAY, SEPTEMBER 8

WHAT IS IT WORTH?

Edmonton is to have an "honest" as-
sessment—after a while. The city assessor
has been given a free hand to scale down
property valuations with that object in
view. The scaling down is not to be done at
one fell swoop, but rather in stages, until the
wind should be tempered to the storm
lambs.

As the assessment goes down the tax
rate will go up, unless further cuts are made
in expenditures. There is no other way
of avoiding that effect. Given the need of
raising each year approximately \$1,000,000
more in the present year, the smaller the mul-
tiplicand, the larger the multiplier will have
to be to produce the sum. Reducing the
assessments and raising the tax rate, and
if these remain constant the reduced
assessment will have to be balanced by an
increased rate.

That is what the assessor is instructed
to do. He is to bring assessments
down to the presumed actual value of prop-
erty, however high the rate may go. The
taxpayer may not be able to view the
rating with the same studied unconcern.
In years past it has been considered more
expedient to finance the city's needs by
keeping the rate down and maintain a
fictitious assessment level. Perhaps the
depression has brought us to a frame of
mind where we are willing to pay a
\$5 mill rate, or even a 60 mill rate, with
"tranquillity."

A WORTH-WHILE WORK PROJECT

Peace River people think if they can-
not have a railway short-cut to the coast
at least they should be given a highway
through the mountains to some point on
the C.N.R. in British Columbia.

This highway could be built. It would
be good business to build it. The better
business because railway subsidies are
encouraging new railway-building, and
the outlook for the long-wanted railway line
is accordingly less promising than it was
years ago.

In this day of highly efficient trucks
and busses a first class highway is an effec-
tive substitute for a railway, up to dis-
tances of two or three hundred miles. The
highway proposed would provide an
alternative outlet for many classes of Peace
River products to the coast cities and the
seaboard.

The road would also be a scenic high-
way, opening up the northern ranges of
the Rockies to the tourist. It would be an
other powerful magnet to draw the motor
tourists of the continent to and through
Alberta.

Scarcely less important, and for the
present far more important, the building
of the highway would provide work for
thousands of men for a whole summer
work which will come day after day, which
can never be done to greater ad-
vantage, and which can never be worse
needed than now.

N.I.R.A. AND THE BANKS

Bankers in the United States are evi-
dently much like bankers elsewhere. They
do not believe in miracles or Santa Claus,
and want to be "shown." President Roose-
velt has been using the bankers' associa-
tion to loosen up credit, and lend money to
industries and business, and they can
take full advantage of the opportuni-
ties opened up by the national recovery
program.

This of course carries a suggestion that
the bankers have not been loosening up
readily enough, and are willing to see how
the experiment turns out before they
stake too much money on it. Perhaps they
do not like the President's talk about in-
flating the currency. Or perhaps they are
still obsessed with the tradition that prop-
erty comes only as the act of God, and
that human intelligence and can have
little to do with it. In any case, the in-
ference is plain that the bankers have
not been "banking" on the recovery plan
as heavily as desired, or have not been in-
clined to "think this is so sudden."

What the bankers will do about the
President's appeal is likely to be decided
importantly, to the N.I.R.A. or the banks
both. If he can persuade the bankers that
the recovery is real and his plan workable,

he will have rallied to its support the most
conservative element in the country, and
the one whose support would go farthest
to assure it of success. If they refuse to
heed his appeal and provide the volume of
credit required, the President can hardly
do else than find other means than the
existing banks through which to make
the needed credit available.

ANOTHER GROUP IN PROSPECT

Canada's "transients" may run a can-
didate for the Dominion parliament. If
they would stay "put" long enough to
qualify for the franchise and pool their
votes in certain selected constituencies
they could elect a dozen members.

And just why shouldn't they have rep-
resentation there? No class of people in
Canada have suffered more terribly be-
cause of what parliament has done, and
because of what it has not done, during
these years of depression than the thou-
sands of Canadian-born workers who are
riding the rods, living on hand-outs, wear-
ing rags and sleeping in jungles because
they cannot get a chance to earn a decent
living by working.

If every occupation is to have class
representation, why not the class that
keeps it moving, whose occupation is hunt-
ing for jobs that do not exist?

Parliament and the legislatures would
be better off if they had a new blood in
the shape of capable young men who
have been kicked about from pillar to post
for three wretched years for no other
offense than that they were young, had no
money, no wealthy relatives, no pull, and
perhaps too much pride to stay at home
and depend upon the scanty incomes of
other members.

Legislators chosen from this class
might not be tried and trusted representa-
tives of the interests of the people, but
on the subject of sound money and un-
checked deflation; but they would inject
into parliament and the legislatures a firm
man belief in the necessity of a firm
man belief and their inherent right to a
chance to live.

Poems That Live

SYMPATHY

The maid I have never thought of me
Amid the scenes of pathos
But when her heart or mine sank low
Ah, then it was no longer so.

From the clasp palm she raised her head,
And kind the cheek against my hand,
Angels' music in the future day
Give her as sweet and pure a name.

SIDE GLANCES - By George Clark

By J. S. Couper

A dispatch from Ottawa announces that a par-
liamentary committee on the most serious
parliament will investigate the Radio Commis-
sion and decide whether it shall be continued or altered.
In the meantime there is a great deal of
in the number of radio licenses issued and various
organizations in the English-speaking provinces are
protesting against the French program, which has
been forced on them by the Radio Commission.
It would be interesting to know if the great
number of those taking out radio licenses
are of the French-Canadian persuasion, or if
for its French language programs, or is merely
proof that the depression is hitting the radio-own-
ing class worse than the rest.

There is irony over the discord raised by the
French program in the English-speaking provinces.
Quebec was the only province to take legal steps
to dispute the federal claim to control of the air,
taking the issue to the Privy Council. Having
been forced to give the Commission authority
over its radio stations, Quebec seems to have
scored a victory in defeat by having French pro-
grams forced onto the English-speaking provinces.

BENNETT TAKES TO FOLLOWERS AT NEWMARKET

Says Time Not Ripe For Policy to Prevent Depressions

NEWMARKET, Ont., Sept. 8.—Beneath the banner of Democracy, Prime Minister R. B. Bennett today took the Liberal-Conservative summer school here Thursday, late in afternoon, to his followers in education. "Democracy," he said, "is not a new thing, it is as old as the world itself. It is a form of government." The Prime Minister said that after this afternoon after filling two weeks' engagement in Toronto and being subjected to a barrage of questions by students on remedies for the depression, government control of radio broadcasting and reduction of all of what he called "wasteful" expenditures. He reiterated his statement made in Montreal a few days ago that Canada could not increase wages and reduce hours of labor without losing her competitive position in the world market and promised further elucidation of his views during the next few weeks. After he had time to study the domestic situation.

Mr. Bennett told the students that it was not time for formation of a policy to prevent depressions. In addition, Mr. Bennett said that government that did not worry by experience was not worthy of the name of a government.

Of the Canadian Radio Commission he said, "The people will not decide whether they want to be ruled by the government or the members of the commission, even if they want to be ruled by the government." He said that such persons attack the work of a commission of the government in England. You can easily put with radio, anything you wish to get to, you will find it to be a good thing.

Mr. Bennett declared the problem of wheat acreage curtailment was a present problem, all over Canada's quota under export arrangements in the recently concluded international wheat conference is almost exactly her natural surplus for the last five years.

In reply to question on unemployment insurance he said unemployment insurance is an amendment to the act, he declared, unemployment insurance is set up in those provinces which agreed to have it.

Tigress Gets 199 Years For Murder

Varied Opinions and New Ideas Forward at Montreal

Montreal, Sept. 8.—With Quebec representatives added to those of seven other provinces of Canada, the Royal Commission on banking met tonight, Tuesday, to Ontario. Montreal sitting of the commission headed by Lord Macmillan concluded early yesterday afternoon, and later the body entrusted for Toronto to meet in that city today.

Every province in Canada, with the exception of Ontario, has now placed its viewpoint on banking and finance before the commission, which will report to the Dominion government.

Thursday Lord Macmillan and his fellow commissioners were given a variety of viewpoints on several banking and financial matters. Interlocking directorates were condemned in no uncertain terms by Mrs. J. B. Bailey, representing the Women's Conservative Association.

Representatives of the Montreal Stock exchange and the Montreal bank market discussed with the commission the advisability of establishing a central bank in Montreal. Strong support for the idea came from L. G. Heald, appearing for the Montreal Stock exchange.

LEWIS CAPTURES THE TROCHU CUP

—BILL LEWIS—

They did decide just who are to be senior baseball champions of this province along with run-down tomorrow. Tomorrow, the Edmonton fans had to watch two outside clubs battle for provincial supremacy right in their own backyards. ... South Stars were beaten in the semi-finals by Carleton and they, in turn, took it on the button from Nacmic down there in old Diamond Park. ... But this season the city has its own Diamonds, and it's a hard-hitting team. ... If you will, the players are willing to wage a war as long as the trophy that will remain in Edmonton for the forthcoming year. ...

It seems that it will be even better when the Carleton team, for each night will be a hard-hitting team. ... If you will, the players are willing to wage a war as long as the trophy that will remain in Edmonton for the forthcoming year. ...

Don't be surprised this fall if Edmonton has the most flourishing griddle league in the west. Officials have taken a radical step in forming their city circuit with senior and junior intermingled on all the teams with the sole object of producing a highly entertaining brand of Canadian football. ... The type of football will be well received by the fans. ... The type of football will be well received by the fans. ...

This league is the only one of its kind in the province. ... It is likely to bring the griddle game to the forefront as one of the city's major sports. ...

Calgary Amateur senior football squad has lost two star performers who were expected to help them against this season. ... At least, the griddle game is feeling the many times he carried the ball last year, has gone to the east to school, while Charlie Harrison, their home-produced half who was with Regina Roughriders last fall, has returned to the Saskatchewan capital. ...

Jack Starkey, the local golfer, has again reached the semi-finals of the Totem Pole tournament at Jasper. ... This may be Jack's year to take the coveted trophy. ... Defeat of Ellsworth Vines in the U.S. men's championship just about closes a year of disaster for the man who was hailed last year as the "second Tiger". ... The team leader of the American Davis Cup team was treated in the roughest sort of manner in Europe and now, it seems, the boys have more respect for him at home. ...

HYPERION ODDS ARE TWO - ONE

LONDON, Sept. 8.—Thursday's call-off of odds for the historic St. Leger race to be run at Doncaster, September 13 showed Hyperion, Lord Derby's colt and winner of the Derby three months ago, at 2-1. Mored Bousquet, the dangerous French threat, has displaced Lord Derby's colt as the second favorite, being quoted at 3-1. Scarlet Tiger was at 15-1 and King Salmon at 10-1. ...

Many local soccer folk will remember Charlie Pennell, now star goalie for the Hillhurst team. Pennell played a brilliant game, and reports are to the effect he is still plenty good between the posts. ... Other familiar faces may be seen in the Calgary league, and this also should be enough to draw the soccer fans in order to see their old favorites playing. ... Orders received are for one-half dozen overprinting permits at a dead-end in the score after the 90 minutes of playing time have been played through. ...

Referee J. Gilchrist has been appointed the official for this game. ... The tongues of some mouths and the flames are as long as their fingers. ... minutes of playing time have been played through. ... Referee J. Gilchrist has been appointed the official for this game. ...

TWO LEAGUES RE-ORGANIZED FOR BIG YEAR

Senior Men's Five and Commercial 10 Ready For Action

Coming back after two years of inactivity, the Edmonton Senior Men's Five and Commercial 10 leagues were re-organized at the Recreation Bowling Academy last night. All one of the most enthusiastic bowlers in the city were present at the meeting. It was decided that the league would be comprised of eight teams, each team with an average of 1000 or close to that figure.

The temporary team captains selected were Archie Bell, Willie Huggins, Charlie Turner, Jack MacDonald, Freddie Stewart, George Tridley, Charlie Pugh and Jim Wilson.

The Senior Men's Five pin circuit enjoyed much success three years ago when it was one of the outstanding bowling leagues in the city. This year, as indicated by the meeting last night, it is again due for a fine season's play. Another meeting of the league is scheduled for 8:00 o'clock on Tuesday night.

In the meantime, all those five pin bowlers interested or those who would like to join a team in the league should get in touch with Mel Tridley, the manager of the Recreation Bowling Academy, and he'll find a "spot" for you on one of the teams.

HAVE GOOD MEETING

With indications pointing to the formation of a 24-team league, the Commercial Men's Ten-Pin Bowling League will meet last night at a fine meeting in the Recreation Bowling Academy. Fourteen teams were reported on at last night's meeting. It was agreed that the league would be changed to a straight knockout of the difference of two teams bowling.

Another meeting of the Commercial league is scheduled for Wednesday at 1:00 o'clock in the Commercial office. This meeting is for team captains only. The league was started on September 2nd on September 21st for the first season of 12 teams and the other 12 teams would open September 22nd.

A meeting of the Senior Ladies Five-Pin league will be held this evening at 8:00 o'clock in the Recreation Bowling Academy. All team captains and others interested

Former Local Pro Gains B.C. Open Lead

NEW WESTMINSTER, B.C., Sept. 8.—Turning in a par-shattering 36-hole score of 148, Don Suberland, professional from the Point Grey club, Vancouver, Thursday led 58 amateurs and professionals at the half-way mark in the British Columbia open championship battle.

Suberland added a sparkling 68, four under par, in the afternoon, to his perfect morning round of 72. Three strokes behind came Phil Taylor and his son, Alan, of Victoria, with 149.

Ken Black, defending titleholder, was 150, and the other 56 players who started this year and his father, Don, were 151 and 152.

English Seccer Clubs Deadlock

LONDON, Sept. 8.—The Football and Manchester United played a drawn game at Nottingham Thursday afternoon in a second division English league soccer fixture. Each team scored a goal.

In the southern section of the third division Queens Park Rangers, playing at home, defeated Swindon Town, 1-0.

In the league should make it a point to be in attendance at this important meeting.

PIRATES WIN OVER GIANTS IN SLUGFEST

PITTSBURGH, Sept. 8.—Pittsburgh Pirates enjoyed themselves thoroughly at the expense of New York pitchers Thursday and slugged out a 14-2 victory that sent three out of four for the series so far and reduced the Giants National League lead to 3 1/2 games.

Pittsburgh Reduces New York's Lead By 14-2 Victory

From the first inning when the Corsairs sent Ray Parmelee to the showers and rapped Adolf Lague badly to score five runs, the game never was in doubt.

Bill Terry, New York manager, used 17 players in a futile effort to halt the rampage of the Corsairs, and indications were given about Carl Hubbell's exit as a pitcher who was knocked out Tuesday, back at them in the game's final today.

E.A.C. Gridiron Workout Tonight

Edmonton Athletic Club's team that will compete in the Edmonton Rugby Football Association schedule this fall will hold the first workout of the season at Hudson's Bay grounds, opposite the Redway Park, tonight at six o'clock.

This is a new team and Coach Eric Duggan is anxious to have a big turnout on hand. Even players will have an even chance to make the squad and, as 20 juniors and three seniors are allowed on each league club, there are plenty of opportunities for aspiring gridlers, particularly those under 21 years of age.

Look SMART in one of these NEW Fall Styles

HAND-CUT AND PERSONALLY TAILORED TO YOUR INDIVIDUAL MEASUREMENTS

Fall! And the curtain rises on the greatest Fall showing of men's quality, custom-tailored clothes ever staged by Tip Top Tailors. New and beautiful fabrics—direct from the foremost looms—England, Ireland and Scotland—all have contributed to this showing.

Come in! See the new Fall colors—Devon Browns, York Greys, Sussex Blues; look at the new patterns—clever designs in stripes and checks that will add to or detract from weight and height; feel the beautiful woollens—shape-retaining worsteds, hard-wearing tweeds and serges! Linings are guaranteed the life of the garment. Select material and the style to your liking for your Fall Suit and Topcoat now while the wide range is unbroken.

Tip Top Tailors Clothes are positively unequalled in value—impossible to duplicate anywhere else at or near the famous Tip Top Tailors price. Every garment is strictly hand-cut and tailored to your personal measurements—guaranteed in fit, workmanship and lasting wear.

"Kap" Opening Tobacco Shop Invites Boys

"Mike" Kaplinsky, one of the best known of our town's sporting luminaries, announced last night that he had taken over the Pipe Shop on Jasper Ave.

Mr. Kaplinsky plans to open his tobacco shop in the Brown building, 101 St. and Jasper Ave., on the corner recently occupied by D'Alia's ladies' wear store.

"You can see the shop, for me that we'll have a swell place. Kap reported last night. 'We are installing all the latest equipment and other organizations in having their goods displayed in the shop will be especially fitted out for this purpose.'"

He plans to make it the sporting headquarters for this city.
